COMPARE "THEM" TO US

HYDR8 4i

"THEM"

US

PLEASE ALSO CONSIDER THE FOLLOWING:

Sediment Filter:
Reduces dirt, silt & pipe rust

Pre-Carbon Block Filter:
Reduces Chlorine, chemicals & pesticides

Lead/Reverse Osmosis Filter:
Reduces Lead, Mercury, Arsenic, & micro-plastics

Invigor8 Alkalinity Boost™:
Adds electrolytes such as Potassium, Ca, Na+ & Mg

Self-Cleaning Ozone Tank Technology (as opposed to inferior UV technology)

Touch-less Sensor Technology for Germ-Free Bottle Refilling Experience

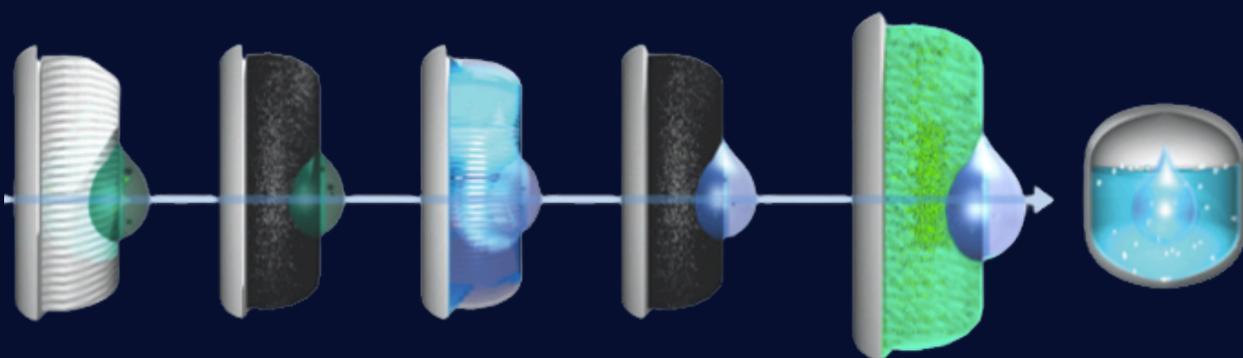

24-48 Hour 5-Star Service

Beware of companies offering ONLY sediment and/or carbon block filtration as this level of filtration will affect the machines performance long term. Expect a higher amount of service calls as a result of build-up of corrosive and invasive compounds inside and outside of the machine (ever see floating white/brown/black particles or cloudiness in your drinking water?).

* OPTIONAL

PURIFICATION PROCESS
